2 End Rails

1 Center Support Rail

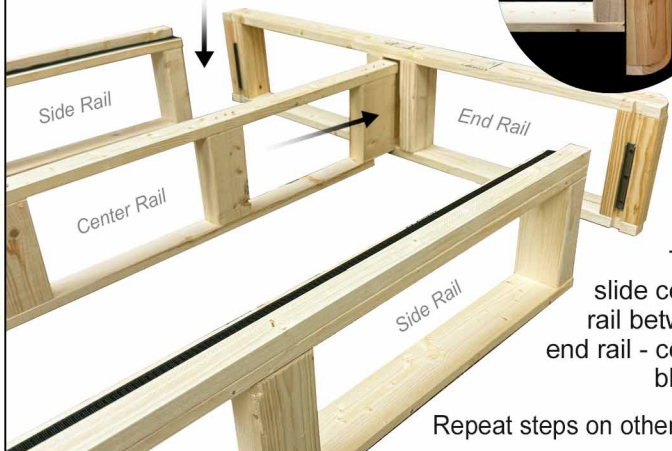

2 Side Rails

STEP 1

Slide both side rail brackets into end rail brackets.

A mallet & cloth may be needed to help softly pound side rails correctly in place

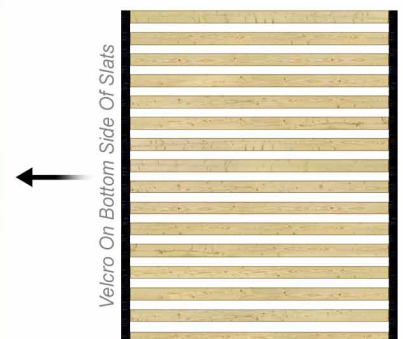

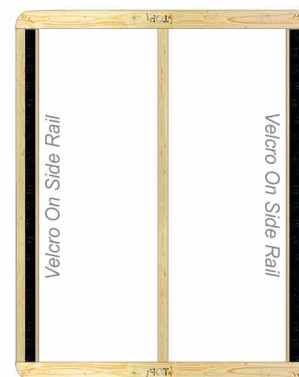

Then slide center rail between end rail - center blocks

Repeat steps on other side

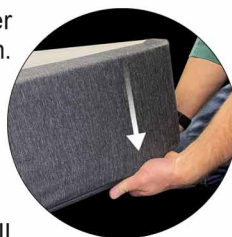

STEP 2

There are 2 long velcro strips located across the top of each side rail. There is also 2 long velcro strips that hold all the support slats neatly together. Place the support slats (velcro side down) onto the velcro on the side rails and press firmly into place.

STEP 3

Pull top cover over foundation.

Then pull the cover down and over each side.

Stand up foundation. Locate the zipper. Zip the bottom cover on.

ENJOY!

Set up in minutes - It's quick & easy!
